The most efficient remedy of our times can be found in AYE Compound Extract. It is an active remedial that "cures all diseases which are caused by the action of the toxic force," and the result of its use is the consequence. Hence it should be used in all cases of diseases where acid, scrofula, blood poisoning, skin eruptions, Pimples, St. Anthony's Fire, Erysipelas, Ringworm, Tetter, and Salt Knot, Worm, Syphilis and Mercurial Poisoning, Rheumatism, Gout arising from Vitiated or Impure Blood, and all other ailments for better in "impurity of the blood." It is also useful for purifying the system.

The particular purpose served by AYE Compound Extract is without doubt to purify and regenerate the system, and to eliminate unbalanced constitutions.
